

During my normal week, I often to quite a considerable amount of driving. My local K-Love has 3 stations which broadcast to me so that I can enjoy my choice in music no matter where I had to drive. They keep me posted on upcoming events in my area and give me the opportunity to praise God all day long through music.

If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, I and many in my community would be forever affected. The service they provide to me through music listening enjoyment is irreplaceable. The ear they graciously lend if someone ever is in need of talking. I have heard many testimonies of people reversing their decision of suicide because of their broadcast. On a personal note, it would affect me due to my mother-in-law being on their daily prayer list. It is extremely comforting to know that I have other companions in Christ praying for the healing and soul of my mother in law.

I believe that the service provided by K-LOVE is in the public interest because this is America. The land where we have been given freedom. Freedom to have our own choice of musical entertainment and someone else airing what they think we want to hear. Many great people in this nation have fought for rights; rights for the ceasation of segregation, rights for women voters, and rights of religious freedom.

In my humble opinion, control of the FM tranlators should remain in the hands that they are currently in.
